

Global Diversification Can Make a World of Difference

PERCENT OF WORLD EQUITY MARKET CAPITALIZATION

As of December 31, 2024

The US stock market is the biggest in the world, but investors who ignore other global markets may miss out on a wealth of opportunity.

- Stocks of the roughly 18,200 companies trading outside the US represent 35% of the world's \$94 trillion equity market.
- When determining where to invest, a country's size may not be a primary consideration. Japan, for instance, is relatively small but accounts for 5% of the world's equity market value.
- Global diversification captures returns from companies around the world and can potentially offset a weak market with stronger returns elsewhere.
