

# The Market and US Presidential Elections

HYPOTHETICAL GROWTH OF \$1 INVESTED IN THE S&P 500 INDEX  
1926–2024

It's natural for investors to look for a connection between who wins the White House and which way stocks will go. But regardless of who wins, nearly a century of returns shows that stocks have trended upward.

- Shareholders are investing in companies, which focus on serving their customers and growing their businesses, regardless of who is in the White House.
- US presidents may have an impact on market returns, but so do many other factors—the actions of foreign leaders, interest rate changes, changing oil prices, and technological advances, just to name a few.

*Stocks have rewarded disciplined investors for decades, through both Democratic and Republican presidencies.*
